If you were at Vogue Knitting LIVE! in New York you would have seen the rush on this amazing Australian yarn, Cleckheaton Superfine Merino which is produced from the finest merino in the world, and from sheep that aren't mulesed. It was launched at our show and is now carried by WEBS - America's Yarn Store, and at select Jo-Ann Fabric and Craft Stores. Look for it in more locations very soon. Here's the back story.

Congratulations to the team at Australian Country Spinners for creating amazing knitting yarn using the finest Australian merino from sheep that are not mulesed. It's shorn, dyed and packaged in Australia. The yarn was a huge hit at our show in New York for their US launch. Secret fact: THERE ARE NO KNOTS. EVER. Yep. Congrats Brenda and your team!

NEW ITEM

Cleckheaton Australian Superfine Merino 8 Ply

The incredible softness and superior quality of Cleckheaton Australian Superfine Merino 8 Ply has to be seen and touched to be believed. Only available in a few stores in the U.S., this cable-plied, DK weight yarn is round, bouncy, and perfect for any next-to-skin project. Highly prized and super-soft, the fine crimp of Australian superfine merino wool gives a beautiful life and resilience to knitted garments and as a bright, white fleeco, it absorbs color with a rich depth that other fibers find hard to match. Nothing surpasses the quality of Australian superfine merino wool, and once you work with it, you'll know why. Cleckheaton Australian Superfine Merino 8 Ply is available in a pretty range of solid colors. *Made in Australia*
